

# BRING STEM4GOOD TO YOUR SCHOOL!

## FALL PROGRAMS LAUNCH IN OCTOBER 2026

This fall, give your students the chance to explore how technology and engineering intersect with wildlife biology, in STEM4Good's 'Hop To It.' Students will engineer humane traps to catch and relocate non-native American Bullfrogs, then create new healthy environment where they can thrive! *(No actual frogs included!)*

### Program Details

- ✓ 4 once-per-week 60-minute sessions
- ✓ Up to 25 students in grades 3-5
- ✓ Trained industry volunteer facilitators (background-checked)
- ✓ All materials and supplies provided

### Commitment From Schools

- ✓ Provide one room with A/V access
- ✓ Attend 45-minute virtual orientation
- ✓ Recruit students to participate
- ✓ Designate one school host onsite during sessions
